OFFICE NOTE.

SUBJECT. Grant of Becharakh Villages on Shraya tenure case of Shanker Setty

LR 53-93.

LAST REFERENCE. Letter No. 138 dated 24 August 1893 from Dy. Commr. Kadur Do.

Paper No. 1 to 3

1. In February 1893, one Shankara setty, a student of the Madras Agricultural College and the son of Madi-manai Maonesawmanna Chamaraj- a cloth merchant, ~~Cubbon~~ Pettah, Bangalore, applied for the Becharak Village of Kallahalli in the Kadur for cultivation Taluk, free of assessment for 5 years. This petition

was sent to the Deputy Commr. of Kadur for report, and the Petitioner, Sankara Setty, was requested to explain the scientific methods with which he would cultivate the lands in question.

2. In his report No. 582 dated 6th May 1893, the Deputy Commr. stated that the lands might be given to the applicant though some of the numbers were included in the Toddy grove list and recommended the reservation of Nos 19, 20. 24 and 25 for Toddy Groves. He further observed that the difficulties as regards water for irrigation purposes should be explained to Sankara Setty. In his letter dated 28th May/93, Sankara Setty explained some of the methods he

Paper No 6

would introduce in the
ensuch in regard to manure,
seeds, ploughs, harrows
rollers &c. and stated that he
would begin the work with
a capital of Rs 2000/.

Paper No 10.

3. The question having
been referred to the Excise
Comm^r, he stated that as
Survey Nos. 16 to 20. & 22 to
25 acres included in the
Toddy Vend Farms, they
could not be given out
for cultivation till the
close of the present lease;
and that if it was the
intention of Govt. to grant
the Whole depopulated
Village to the applicant,
it might be done, reserving
the date trees in the said
numbers, to Government
under Section 41 (4) of the
Mysore Land Revenue Code.

4. In Govt. Proceedings Paper No 13

No. 684-6/97 dated 14th July 1893, sanction was accorded to the grant of the lands in question free of assessment for 5 years reserving date trees in Nos 16, 17, 18, 22 & 23 for the current year and those in Nos 19, 20, 24 & 25 absolutely. The Dy. Conr. was requested to report the number of date trees in each and the shops supplied with toddy therefrom. He was also requested to report as to how other survey Nos stood disposed of.

measuring ac 8 cuntas
assessed 317-12 &
Rs. 212-0-0

93-94

of these 9 Nos:

× 1 to 5, 7 to 9, 13 to 15 and 21.

5. In reply, the Dy. Conr. submits a statement showing the numbers of date trees in each of the survey numbers, 16, 17, 18, 22, 23, 19, 20, 24, & 25 and states that these trees form part of a Varaam

Paper No 16.

× 4700 trees fit for drawing toddy

Which

which supplies 6 shops in Chikmagalur; 9 in Kadur, and 2 in Mudigere, the rent secured ~~for~~ from them for 1893/94 being about Rs. 680/-

From the report it also appears that all other Survey Numbers, viz. 1, 2, 3, 4, 5, 7, 8, 9, 13, 14, 15 and 21 are occupied with the exception of one number (5) which is gomal land. Before finally handing over the lands to Sankara Setty the Dy. Com. wants orders on the following points.

(1) Whether it is desirable to take a Muchalika ~~agnst~~ throwing up the lands in questions after 5 years

(2) Whether the "malke" of trees (toddy & other) standing on the lands should be recovered from the applicant

(3) Whether a Muchalika

Paper No. 17.

No 138
Kadur District Day: Commissioners Office,
Dated Chikmagalur, 23d August 1893.

From, DE 664

No 2463/R.U.S. The Deputy Commissioner,
Kadur District.

To, The Chief Secretary to the
Government of Mysore

Sir,

With reference to Government Proceedings No 6846 (13) R.F. 97-93 dated 14th Ultimo, sanctioning the application of Sankarshetty for certain lands at Kalhalli Village, Kadur Taluk, and calling for a report on some points connected with the application, I have the honor to enclose herein (as required in para 5) a Statement shewing the approximate Number of Date trees in the marginally noted Numbers, and to state that the Toddy trees in these numbers form part of a vanam which supplies 6 shops in Chikmagalur, 9 in Kadur and 2 in Mudigere, the rent secured from them for 1893-94 being about Rupees 680/-

16, 17, 18, 22, 23, 19, 20, 24, and 25.

N.B.

N. B. The whole Taluk being rented for the year 1893-94 - the rent for 1892-93 is taken as the criterion for 1893-94 as well).

2. As desired in para 6 of the Proceedings under reply, I beg to state that out of the 12 numbers mentioned, Survey number 5 is gomal and the rest are all occupied.

N. B. Sankarshetty in a letter of his states that No. 21 has been resigned by its occupant, one Manjé Gowda. This is however not borne out by records.

3. Before finally handing over the lands to Sankar Shetty, I would request instructions on the following points.

(1) Whether it is not necessary or desirable to take a Muchalika from Sankar Shetty against his throwing up these lands after 5 years.

(2) Whether or not 'Malki' of trees (toddy and other trees) standing on the lands should be recovered from Sankar Shetty.

(3) Whether or not a Muchalika be taken from Sankar Shetty binding him to preserve the toddy trees on Survey Nos 19, 20, 24 and 25,

Note it is doubtful whether we can conveniently cultivate the lands with Toddy trees on, scattered, if not in groups.

4. Whether it cannot be arranged to let Survey Nos 16, 17, 18, 22 and 23, which are also stated to contain pretty good number of trees, on the same conditions as Survey Nos 19, 20, 24 and 25 are granted, reserving the trees to Government absolutely, instead of for one year only, as, in the latter case, the occupant will have the option of removing them after a year.

4. I request the favor of early instructions being issued in the matter together with the Map submitted with my letter No 582 dated 8th May last, but not returned either with the Proceedings under reply or with Docket No $\frac{2286}{R.F.\ 97\text{-}92}$ of the 8th Instant.

* Destroyed

I have the honor to be,
Sir,
Your most obedient Servant,

H H Sparks
Deputy Commissioner,
Kadiri District.

DK 624

LR 53-98

In February 1890, Sri. Shankara Shetty, Son of M. Manusamy Ayya, a cloth merchant of Bangalore, petitioned the Government that the uncultivated lands of Kallahalli village in the Kadur Taluk may be granted to him without tax for 5 years in order to enable him to open a model farm thereon and cultivate it with the aid of improved appliances. After getting report from the D.C. of the Dist. & from the Excise Com.r Government, by G.O No 684-6 / RF 97-93, were pleased to give him free of assessment certain specified lands in the said village.

The farm was accordingly opened by Shankara Shetty on the 18th of August and

he sent in reports of progress
to the D.C. Com.r for the
months of Sep. Oct. Nov.
Dec. and Jan.y

These reports shew
that 50 acres of land
out of a total of 31 acres
and odd, were cleared
in Sep. at a cost of 150 Rs
and sown with horsegram
in Oct.; and a further
25 acres, cleared in Oct.
at the same cost, and
sown with Bengal
Gram in Nov. In
October again, a well
was being sunk at
Gathalahalli for the use
of the villagers. Owing
to the fact that the
land had lain fallow
for a number of years,
in preparing it for
cultivation, he used the
native plough instead
of the Swedish plough
which 'inverts the Soil'
As horsegram was sown
late in the season, and

said as there was no rain at all for the Bayal Gram, the Crops were poor, and he allowed shepherds to graze their sheep on the Corn, in return for folding them on his land, he has no report to make for the next 5 months. His work during the time would be to sink a well and construct build houses & set tenants & settle down on the land, and & select Cattle for farm-use.

A during the whole of the next monsoons.

The D.C. Com.r with his letter No 648 dated 2nd June 1894 submitted the report of the Asst. Com.r about the working of the farm. The report shews that Sankara Shetty had up to date (24th May) spent Rs 897-5-10 on the farm, including implements to the value of Rs 283. that he had imported 4 improved ploughs from Messrs Oakes & Co. 3 improved County ploughs, 1 Jupiter Cultivator and

one Harrow. The permanent establishment on the farm consisted of 3 servants and 1 Maistry. Daily labourers were employed for other work. The crops were cultivated were Survey Nos 21, 24, & 26 for Horsegram, and part of No 16 for Bagal Gram. The cultivation was according to old methods, as he had to commence operations late in the season. He intended to clear Nos 17, 18, 22, & 23 & bring them under cultivation next season. He was sinking a trial well on his farm, he had a well sunk for the ryots of Gidlehalli. The report says that if he settles in his own village with his own ryots and Cattle, his experiment will meet with success. For inducing ryots to settle down a Good drinking water well is the first necessity.

The crops were poor.

From these reports we see that some progress has been made.

Of the 2000 Rs, which he said he would spend on the farm at the beginning, about ½ half has already been spent.

Owing to the nature of the Ground, the lateness of the Season, and other reasons, he could not at once employ all the improved appliances, & ~~to harrow~~ and so thoroughly pulverise the land; and Superior farm-yard manure prepared under the box-System has not been used. ^ Folding sheep on the land, perhaps for this purpose(?)

From his report for January it may be seen, that he intends to realize the Conditions which, acc^g to the Report of the Asst. Com^r would ensure success to his Experiment.

In the views of these facts, it would be desirable for me not to pronounce any decided opinion about his undertaking, until more time is given, ~~granted~~ him for working out his own methods. It

would be unnecessary, Moreover, & for him to Submit Monthly reports of progress. Two reports in the year would quite suffice.

REPORT FOR THE MONTH OF Sept 1893.

"The Model Farm, Kalhalli, Estate Kadur District."

Under the instructions of Government received in Chief Secretary's letter No. 2072/J123. of the 29th July and the Deputy Commissioner's letter No. 221 of the 9th Aug 1893.

This farm was opened on the 1st of Aug The whole of it was covered with jungle trees shrubs and few date trees.

The soil being Sandy loam about 50 Acres at present have been cleared by coolies at a cost of Rs 150/-

The land having lain fallow for the last 12 or 15 years, it was not advisable to plough all at once with Swedish plough which invert the soil. So for the first ploughing

to cultivate the above acres

As it was necessary to plough thrice at least by country ploughs, for the second time I hired 100 ploughs at 4as a day each.

I mean to cultivate the above acres under horse gram this year. The monsoon is rather light in this taluk place, I am waiting for the opperturnity to sow the seed broad cast.

I request you do there are no date trees except in No. 19 near canal to grant me Nos. 19, 21, 24 in addition, the date trees near the canal will be preserved.

Subject N° 89.

Employment of Agri Inspectors

Summary of discussion

Agricultural Inspectors should be employed in educating the ryots in the use of improved implements of agriculture. For this purpose they should be ~~employed~~ supplied with a good library of agricultural books and a supply of improved implements, by means of which they may demonstrate to the ryot the advantages of deep ploughing &c. The duties of the agricultural Inspectors should also be improved and men with a knowledge of Veterinary Science should be preferred for these posts

Deedar's reply It is very difficult to make our ryots to take to new methods of agriculture We

will gradually do whatever

is possible.

GOVT. OF MYSORE

To

The Deputy Commissioner
Kadur District.

Sir,

With reference to your docket No 699 dated 13th November last, calling on me to inspect and report upon the progress made by Saukaradetty in the cultivation of lands granted to him with certain concessions at Kallalli, Kadur Taluk, I have the honour to report that I inspected the Farm of the said Saukaradetty in the Kadur Taluk, and found that up to date of my inspection a sum of ~~Rs~~ 897-5-10 had been spent, inclusive of implements to the value of ~~Rs~~ 283/. He has imported 4 improved ploughs from Messrs Oakes & Company, 3 improved Country ploughs, 1 jupter

not kept his own cattle. The
permanent establishments on the
Farm consists of 3 Servants and
1 Maistry, day labourers being employed
for other work.

During the last season Horse-gram
crop was raised in Survey Nos 21,
24 & 26, and Bengal gram in about
half of Survey No 16 according to old
methods through hired labour, as
he had to commence operations
rather late. The crops were poor.
He expressed his intention to clear
the trees on Survey Nos 17, 18, 22 &
23, and to bring them under
cultivation next season. Most of
these crops he gave to Shepherds
to graze and to fold their ~~cattle~~
Sheep there during the next monsoon
He was sinking a trial well 3¼ feet
in diameter then 8 feet deep. It
is only with a good drinking water
well that agricultural labourers

Cair

Village. - He lives in Godeballi
about 2 miles from Kalballi. If
he settle in his own Village with
his own ryots and Cattle, his
experiments will meet with Success.
I advised him to try, Oat cultivation
getting Seeds from Northern India.

The ryots of Godeballi, through
his help, have Sunk a well in
their Village - A good Spring
has been tapped.

The Amildar has been asked
to propose re-appropriation of
District Fund amounts Sanctioned
for other wells in the Taluk not
taken in hand, for helping these
ryots by Stone lining, Constructing
parapet wall &c.

I have the honor to be
Sir
Your most Obedient Servant.
K Ramunujam

Forwarding the progress
report for December last
of Kalhalli Model Farm
with certain observations thereon

Rec'd 23/1/95

From,

The Deputy Commissioner,
Kadur District.

To, The Chief Secretary,
to the Government of Mysore,
Bangalore

Dated Camp Jegati 17th January 1895.

In forwarding herewith the progress report for December last of Kalhalli Model farm received from Mr. B. Sankara Shetty, has the honor to State that the undersigned, on inspection found 68 out of 120 acres under cultivation, being prepared for Coffee Cultivation. It is doubtful whether the Government Conditions on the grant of the land, viz: for experimental farming, are being Strictly Carried out.

2. The value of the Crops, principally grain, do not favorably Compare with the Surrounding Cultivation, but this may possibly be owing to the land being new.

3. The undersigned does not however, advocate the necessity of

of a further grant of land until
the whole of the present grant
is cultivated.

Deputy Commissioner
Kadur District

Reference.

nder the instruction of Govt
eceived in Chief Secretary's
ter No. 2072/123 of the 29th July
nd the Deputy Commissioner's
tter No. 221 of the 9th Aug 189:

ocal crops.

This year local crop
ingly, Coriander, Horse gram
as sown. I was not able to
t anything owing to insufficient
ain and moreover it is very
ifficult to maintain myself
n dry cultivation.

Coffee.

I have a great desire
to cultivate Coorg Coffee like
Mr. Meenakshayya at Bangalore
n the number 25. Fifty thousand
hits has been dug up to date.

Seedlings.

Brought 50 measures
of Coorg Coffee, selected a piece
of ground in the number 25
for seedling, it would be
sown within fortnight

Wells.

Three wells has been
Compleated and preparing
another two, water would be
drawn in four wells by
double motes just like in
the Saidapet Farm and
the one in a double barrel
pump.

Bricks.

A lack of bricks

has been compleated and it would be burnt very soon.

Wet cultivation.

I have a great desire to cultivate in numbers 19. 18 and in part of 25. Sugarcane, Garlic paddy, Turmerick & with a capital of ten thousand Rupees.

Further I beg to State Nos 18. 19. 25 was sanction but to reserve the toddy grows, among 300 acres the above numbers are the best once. Therefore I pray that your honor would be kindenough to excuse me to reserve the toddy grows.

I will be able to send half yearly report of my farm in June and December instead of mont

Soliciting an early sanction to cut the t toddy grows
